MICRO.....

...quality media protection

Ask your yourself this question. Have you ever accidentally exposed your computer disks to heat, humidity or light? If the answer is yes, then you may now be wishing that you had put the disks in a device offering secure media protection. One solution which you could have used is the 'Micro'. Available in two sizes, the Micro is a compact cabinet offering 1 hour of fire protection for computer media.

One of the most prominent features, is that the Micro can be customised using a range of fittings such as fixed shelves, pullout platforms and pullout drawers thus allowing the Micro to meet specific customer needs. All in all, the Micro is another fine example of Chubb safes implementing quality and reliability within its products.....

chubb safes

KEY FEATURES

- Quality media protection using high specification materials
- All Micros are tested and certified to offer **60 minutes** fire protection for computer media.
- The Micro cabinets carry the VDMA S60 DIS certification label as well as the European standard EN10471-1 accreditation for data protection.
- Can be **customised** by using fixed shelves, pull out platforms and drawers.
- Manufactured to an ISO9002 accredited quality assured process.

QUALITY FEATURES

- TESTING**
 Certified by the main international testing authorities achieving VDMA S60DIS 1 hour fire test and the European standards EN10471-1.
- MANUFACTURE**
 Manufactured to an ISO9002 accredited quality assured process.
- LOCKING**
 The Micro 40 and the Micro 80 are both locked by a high security, double bitted keylock. Thus, offering additional for your vital data.

Micros have a slam action door ensuring effective protection even if it is not locked.
- CONSTRUCTION**
 Chubb safes three stage barrier materials provide the ultimate in proven fire protection for your computer media.
- BASE FIXING**
 The cabinet can be anchored the floor by means of a security fixing bolt. Thus providing effective defence against physical removal.

MICRO 40

SHELVES

PULLOUT PLATFORM
