

A close-up, low-angle shot of a heavy-duty metal safe door. The door is painted a vibrant yellow and is set against a dark green background. The door is slightly ajar, revealing the internal locking mechanism. Several large, cylindrical bolts are visible, protruding from the door's edge. A keyhole is located near the center of the door. The lighting is dramatic, highlighting the metallic textures and the industrial design of the safe. In the background, the words "Chubb safes" are partially visible on a green surface.

SOVEREIGN

Chubbsafes
Quality where it counts

SOVEREIGN.....

....the ultimate cash safe

Looking for a high specification safe to provide a cash rating of between £6,000 and £150,000? Well, the 'Sovereign' range does just that, offering cash protection up to £150,000. Constructed from the highest specification materials, its features combine to provide the greatest protection against burglary attack.

One of the range's most prominent features, is that the Sovereign can be customised with fittings such as deposit facilities, shelves and lockable drawers thus allowing the Sovereign to meet specific customer needs. All in all, the Sovereign is another fine example of Chubb safes implementing quality and reliability within its products.....

KEY FEATURES

- High quality cash protection using modern high specification materials and technology.
- Recommended cash ratings of up to **£150,000** depending on model.
- Certified and tested by the leading European testing authorities (Loss Prevention Certification Board of UK, Vds of Germany, CNPP of France) to European standard EN1143-1.
- Offers **60 minutes** fire protection for documents. Tested to NT fire 017 standard.
- The Sovereign range can be **customised** with a choices of locking options, deposits, shelves and lockable drawer deposits in order to meet customer requirements.
- Manufactured from an ISO9002 accredited quality assured process.

QUALITY FEATURES

TESTING

Certified and tested by the leading European testing authorities (Loss Prevention Certification Board of UK, Vds of Germany, CNPP of France) to European standard EN1143-1.

MANUFACTURE

Manufactured to an ISO9002 accredited quality assured process.

LOCKING

Grades 0-3 are secured by a single double bitted keylock as standard. Grades 4-6 are secured by dual key locking, conforming to EN1143-1, as standard.

A wide variety of electronic, time and time delay locks can be fitted on special request.

CONSTRUCTION

Constructed from jointless barrier materials encapsulated in an outer and inner steel body for greater protection against attack. Differing security levels are achieved within the Sovereign range by the use of increasingly resilient barrier materials. The doors are constructed using the same barrier materials together with the inclusion of additional protection over the locking areas.

BOLTWORK

Four way engagement with 32mm moving bolts extending from 3 sides of the door that secure the door effectively into the body. The 3 way moving boltwork provides effective defence against attacks. Up to four anti-explosive devices, protect the boltwork against attack.

BASE FIXING

A steel bush is welded in the safe base to accept a Chubb-specified high tensile, heavy duty anchor bolt.

CASH RATING*

Naturally, the cash rating increases with the grade of Sovereign. The recommended ratings are **£6,000** (grade 0), **£10,000** (grade 1), **£17,500** (grade 2), **£35,000** (grade 3), **£60,000** (grade 4), **£100,000** (grade 5) and **£150,000** (grade 6).

FIRE RESISTANCE

Grades 0-2 have gained the NT fire 017 standard and offer **60 minutes** fire protection for documents.

INNER BODY

DOOR

AIRTUBE DEPOSIT

DESIGN FEATURES

SIZE

A comprehensive range of product sizes, available throughout all grades.

FINISH

The safes are finished in a light grey texture. Escutcheons, combination dials, keypad and handle are finished in black.

CUSTOMISATION

The Sovereign range can be **customised** with a choice of locking options, deposits, shelves and lockable drawer deposits in order to meet customer requirements.

DESIGN

Attractive design with Chubb safes handle for comfortable and smooth operation

LOCKABLE DEPOSIT DRAWER

* Cash rating is the amount an insurance company will allow the safe to store overnight. As a general rule, this rating is multiplied by a factor of 10 for jewellery so a Sovereign Grade 0 with a cash rating of £6000 will allow for storage jewellery worth £60,000 in domestic situations.

* Due to the constant introduction of new customisation methods not all the methods available are listed. Hence, in order to meet your specific customisation needs please contact Chubb safes or your local authorised dealer.

TECHNICAL SPECIFICATION*

* These are nominal dimensions. For further detailed dimensions please ask for a detailed technical specification sheet.
