

FireSec Safe

- for protection of documents

*Looking to store valuable documents?
Well, look no further. 'FireSec Safe' is a safe
designed specifically to protect a wide range of
paper documents from the threat of fire.
With a vast number of advantages,
its no surprise that the FireSec safe has become
one of SecureLine's best selling products.*

Models

FireSec Safe is available in six sizes.
The FireSec Safes sizes 1 and 2 are suitable for
domestic users or small businesses. The FireSec safe
size 3 has one shelf fitted and the sizes 4-6 are fitted
with a lockable drawer as well as the shelf.

Tested and certified

The safes are tested and certified to NT Fire 017 60P for
sizes 1-3 and to NT Fire 017 90P for sizes 4-6.
This means that even after being subjected to a fire for 60
minutes (90 minutes for sizes 4-6) the documents are still
perfectly legible.

Quality

FireSec Safe is manufactured in accordance
with ISO9001 and is subject to external controls
throughout the manufacturing process.

Locking

All models have the option of keylocking or
user-friendly electronic locking.

Design

The cabinets will complement your office
environment in colour, design and size.
They have a sophisticated modern look
which is finished in an off white colour.

FireSec Safe - technical information

Model	Ref Code	External Dimensions (mm)			Internal Dimensions (mm)			Net Weight (kg)	Volume (litres)	Fire protection (mins)
		Height	Width	Depth	Height	Width	Depth
