

# FloorBoard Safe

- for protection of cash and valuables

*Ever thought about discreetly hiding your cash and valuables?*

*Well, with the 'FloorBoard Safe' you can. Designed to fit between floor joists, the safe allows cash and valuables to be secured in areas where a conventional free standing, floor or wall safe cannot be utilised. Once secured to the joists by coach screws, the safe fits flush with the surrounding floorboards and can be covered by a rug or a carpet.*

## **Models**

The FloorBoard Safe is available in one size only

## **Construction**

Each safe is constructed from solid steel.

## **Locking**

The FloorBoard Safe is secured by a double bitted high security keylock.

## **Design**

The cabinets are designed so that they are fit flush with the surrounding floorboards and can be covered by a rug or a carpet.

## **Cash Rating**

The FloorBoard Safe has a recommended cash rating of £1000.

## FloorBoard Safe - technical information

| Model           | Ref code | External Dimensions (mm) |       |       | Net Weight (kg) | Volume (litres) |
|-----------------|----------|--------------------------|-------|-------|-----------------|-----------------|
|                 |          | Height                   | Width | Depth |                 |                 |
| Floorboard Safe |          |                          |       |       |                 |                 |
| Floorboard Safe | FBS/1    | 210                      | 350   | 130   | 9               | 6               |
